Overview

Yellowfin Components

Collaboration

It's about making easy for everyone in organization to take in the conversation.

- Timeline

Have several tabs to track event in the system and collaborate with other users.

- Chats

Use Activity Panel to chat or discussion with others. It's located in every dashboard, storyboard and report.
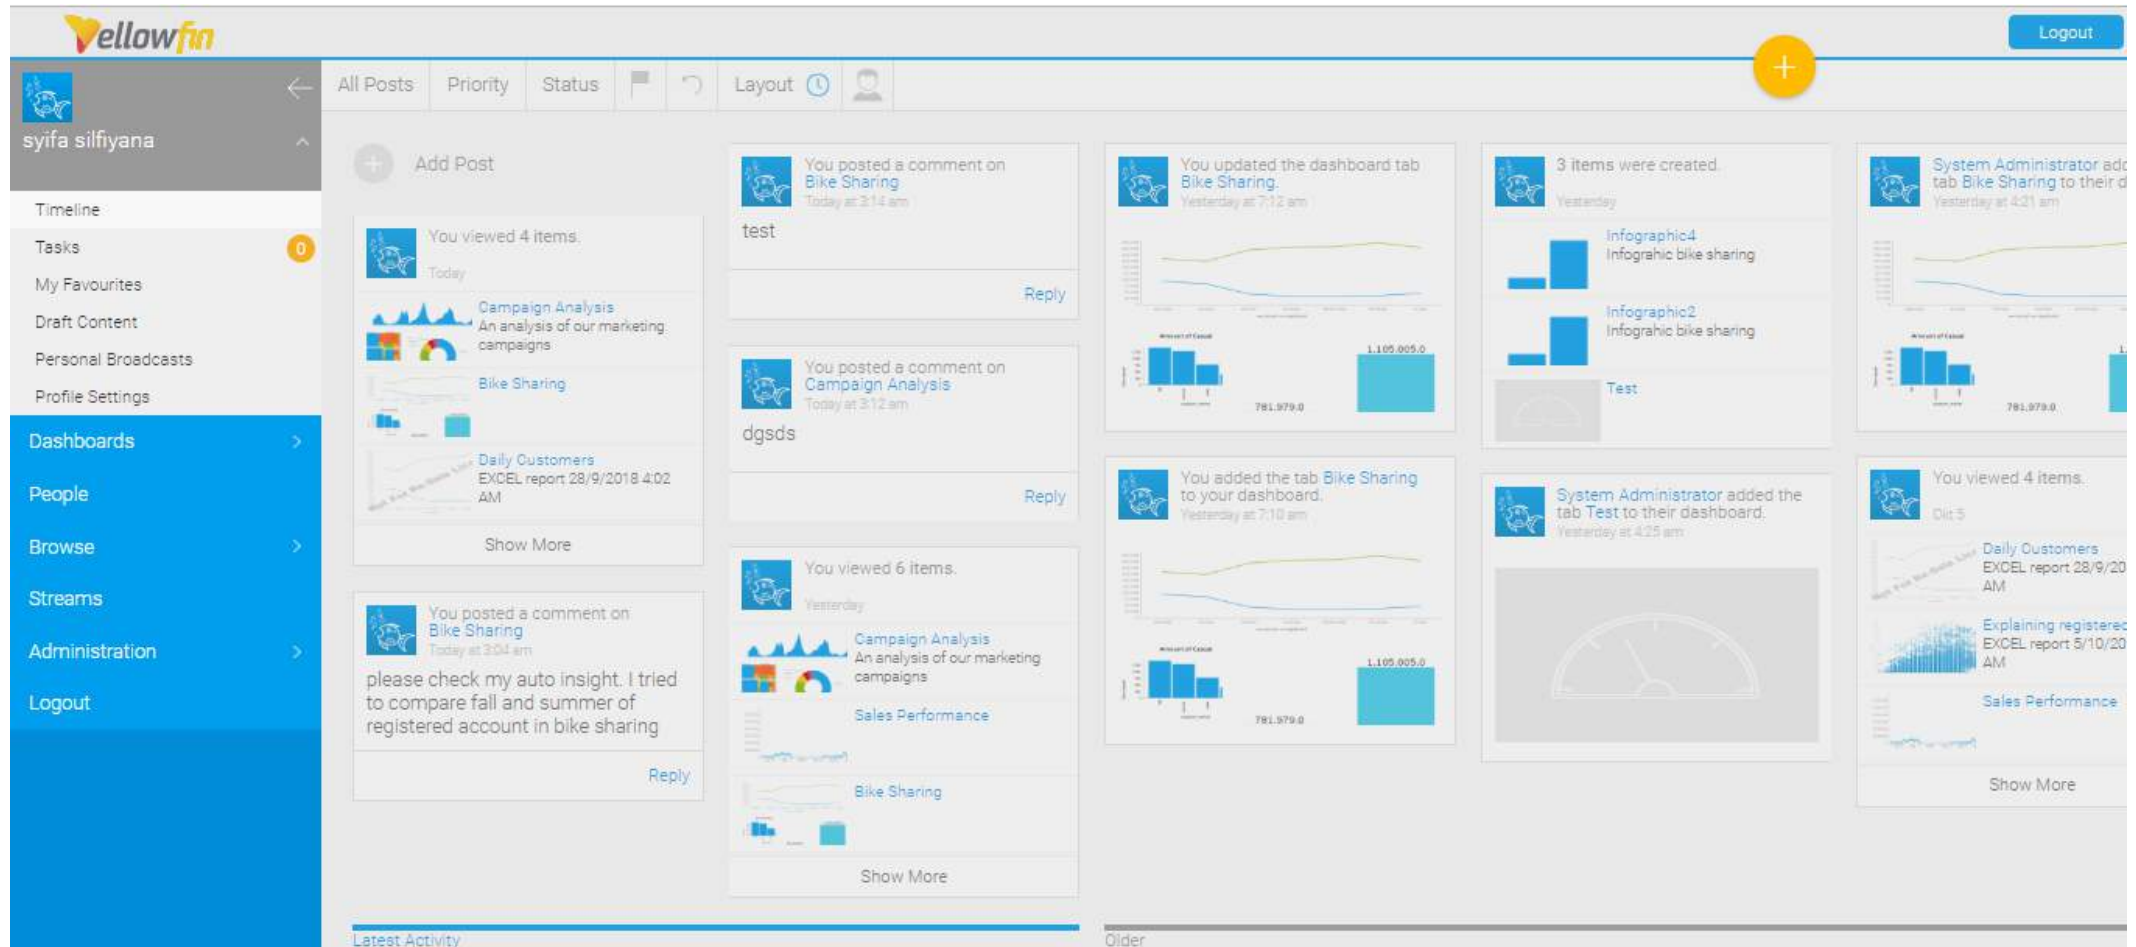

- Discussion Stream

Allowed user to discuss together regarding yellowfin contents or external links
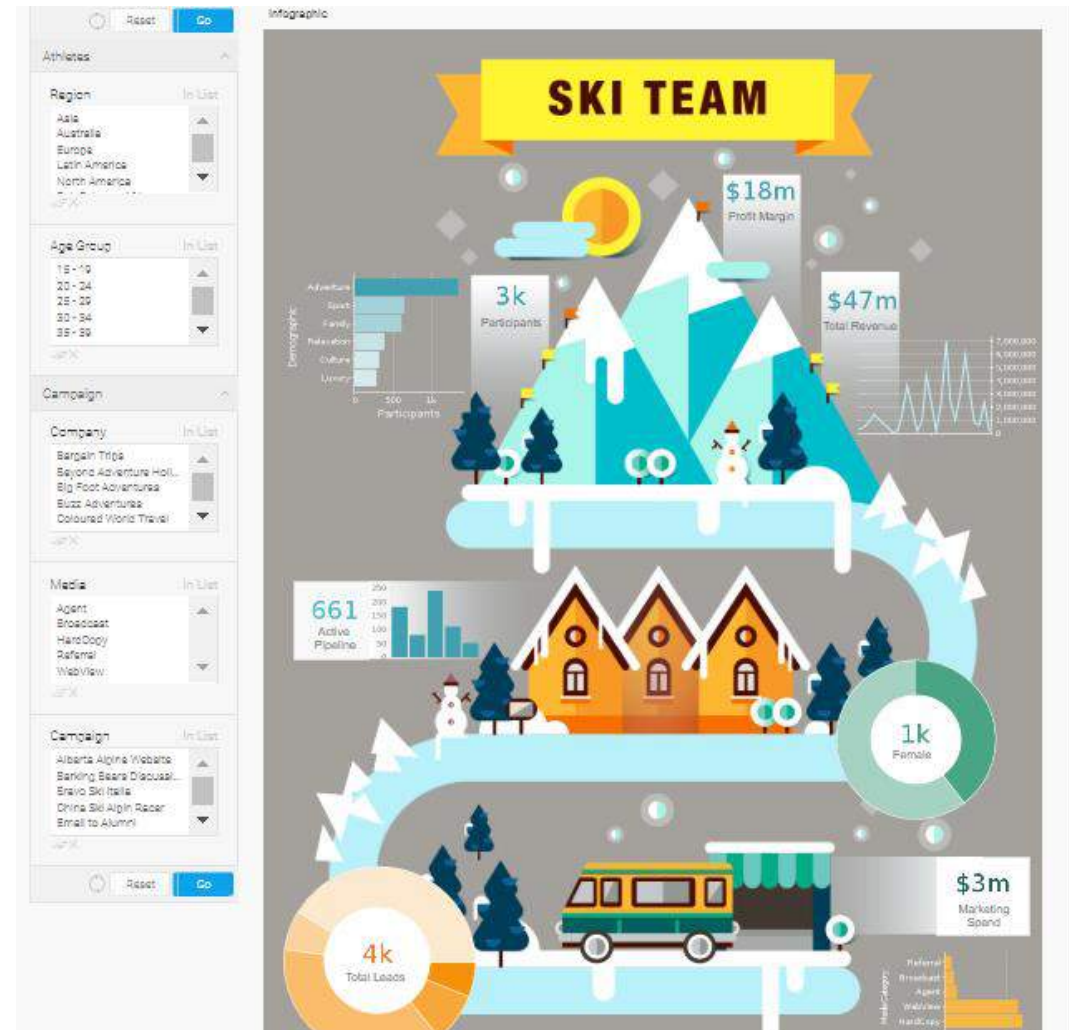

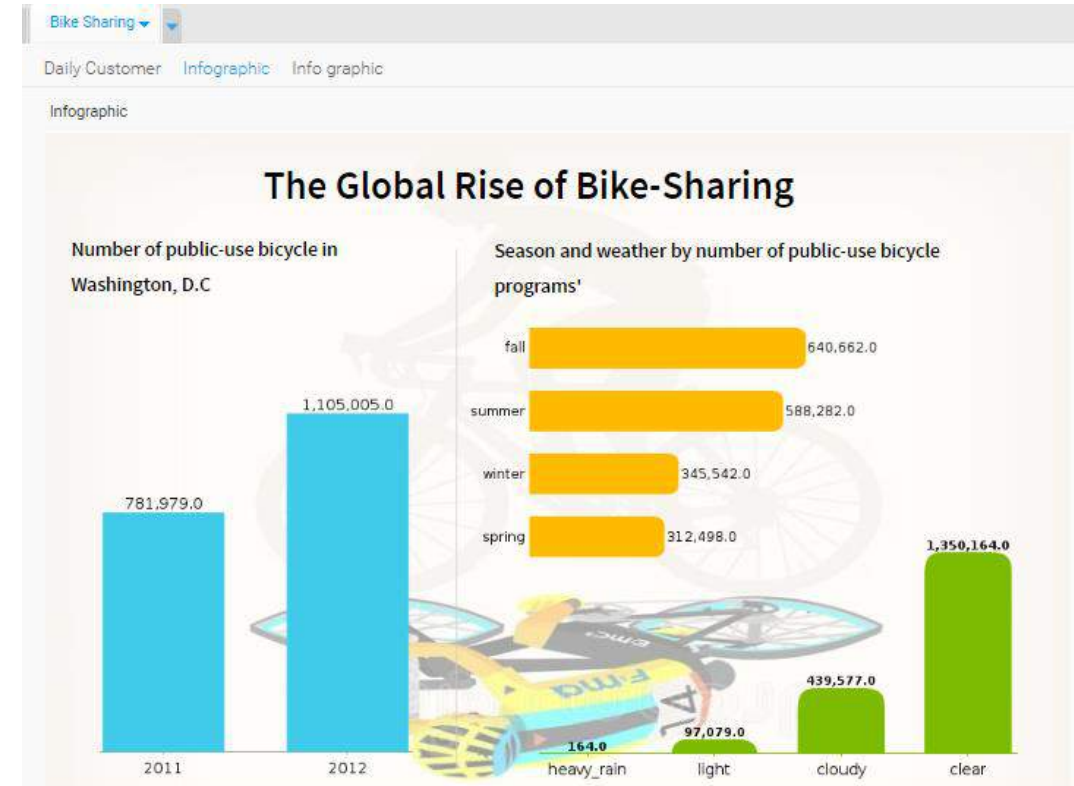

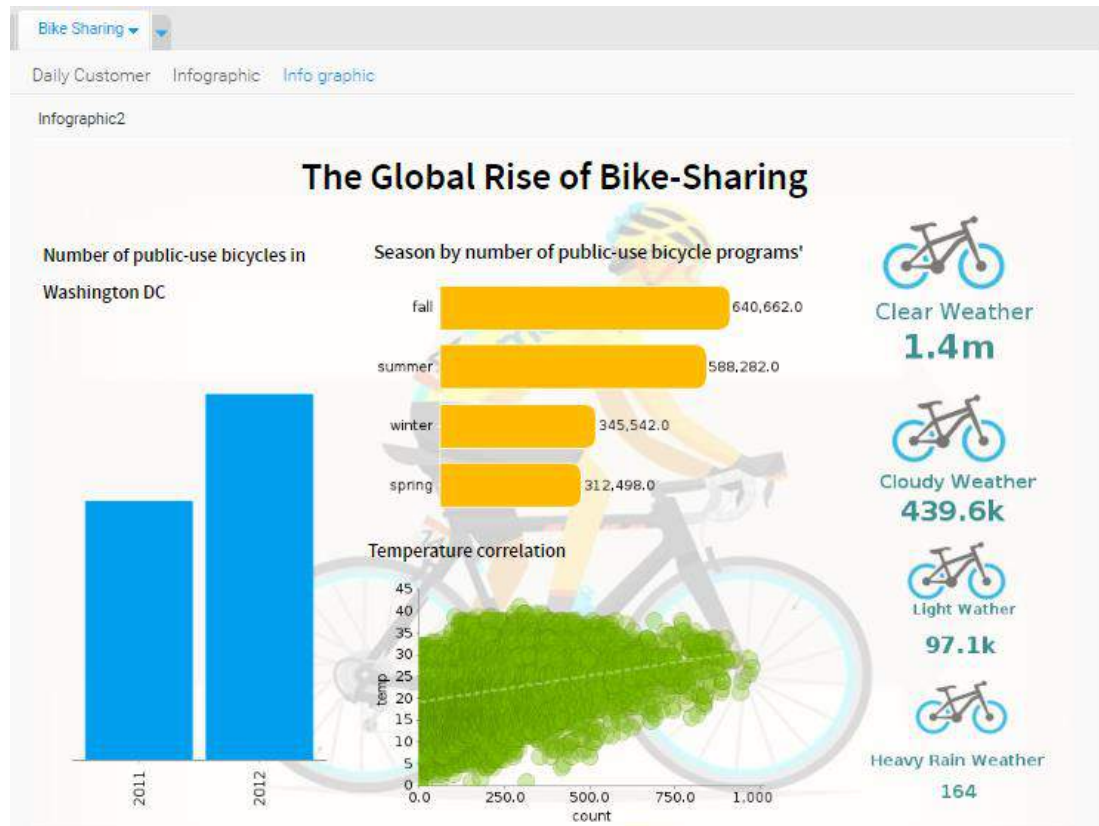

Collaboration

Timeline

Info Graphic

Info Graphic is a form of data presentation with a visual concept consisting of text with additional interesting illustration.

Info Graphic

Auto Insight

Automatically provide insight without having to dig through all data.

Instant Insight
- Explain: for understanding the data that drives changes in your content
- Compare: uncover differences between two data point
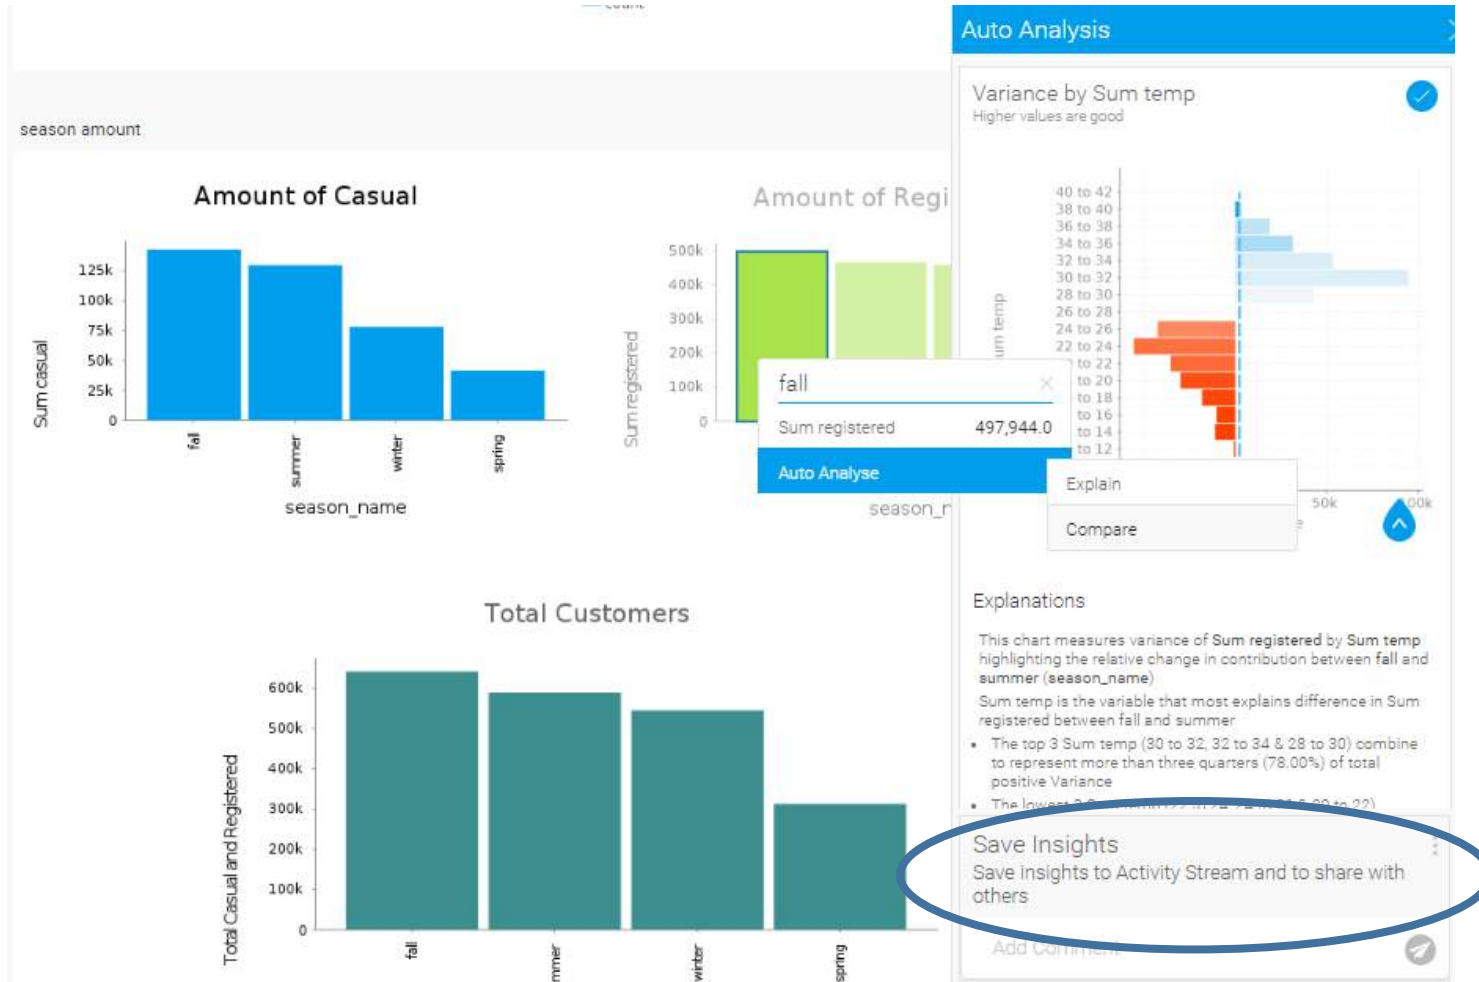

Auto Insight

# Auto Insight

Auto Analyse → Explain
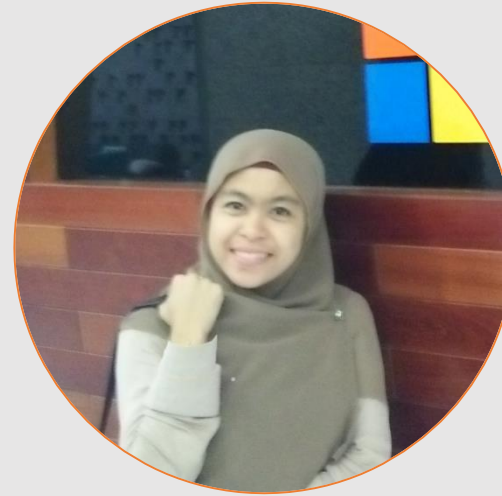

Auto Insight

Auto Analyse → Compare

Auto Insight

Save and discuss the insight

Thank you
